AGRIS
The Agricultural Integrated Survey
Producing cost-efficient data on farms for policymaking

What is AGRIS?

- A new modular 10-year survey programme to generate better and less costly data on farms
- Proposed to countries for further customization and national implementation
- Informs national policies and responds to SDG requirements

A REGULAR FLOW OF TIMELY AND INTEGRATED DATA:
- Policy relevant
- Sex-disaggregated
- To identify challenges in production, productivity and resilience
- Anonymized microdata available

WHAT IS NEW?

- Methodological innovations
- Standard definitions, concepts and classifications
- CAPI technology
- Technical assistance to build capacity
- Financial support
